Career Objective

Motivated Computer Science student with a passion for software development, UI/UX design. Adept at full stack web development with experience in modern technologies, eager to contribute innovative solutions in a dynamic environment.

Education

B.E. – Computer Science & Engineering

Government College of Engineering, Erode

Duration: 2022 – 2026

CGPA: 8.4

Certifications

- C Programming – NPTEL
- Python Programming – NPTEL
- Networking Basics – Cisco

Technical Skills

- C, Python, Java
- HTML, CSS, JavaScript, ReactJS
- MySQL, MongoDB
- Git, Github, Cursor, VS Code

Soft Skills

- Collaboration & Teamwork
- Problem-Solving
- Adaptability & Quick Learning
- Leadership & Initiative

Areas of Interest

- Web Development
- Computer Networks
- UI/UX Designing

Experience

AI & Full Stack Development Intern

Two47 Letters Tech Pvt Ltd — Jul 2025

Completed a one-month internship at Two47 Letters Tech, Bengaluru, gaining hands-on experience in LLMs, Vector & Graph Databases, and AI-integrated Full Stack Development using Cursor

Software Engineer Intern

Nuvai AI Solutions Pvt Ltd — Dec 2025 to Mar 2026

Completed a three-month full-time internship at Nuvai AI Solutions, Bengaluru, working on a production level software codebase. Gained practical experience in UI/UX Design, Software Development, and using Claude AI and industry-standard workflows.

Projects

URL-Based Phishing Detection using Gradient Boosting

Jan 2026 – Apr 2026

Tech Stack: ReactJS, Flask, Python, Scikit-learn, Pandas

Developed an intelligent phishing detection system using Gradient Boosting Classification with 61 URL-based features, achieving 96.1% test accuracy and 97.2% phishing recall. Built a ReactJS frontend with a Flask REST API for real-time URL analysis.

Gate Pass Management System

Apr 2024 – May 2024

Tech Stack: HTML, CSS, JavaScript, jQuery, PHP, MySQL

Built a web-based gate pass system using HTML, CSS, JavaScript, jQuery, PHP, and MySQL. Automated approval workflows, reducing wait times by 60% and enabling administrators to track approvals 40% faster.

Hostel Checkpoint

Jan 2025 – Feb 2025

Tech Stack: QuaggaJS, MongoDB, JavaScript, HTML, CSS

Developed a hostel management system using QuaggaJS barcode scanning and MongoDB, accelerating student verification by 40% through real-time barcode scanning.
